WORK HISTORY

CareLuLu, Inc.

Centreville, VA

Web Developer (contract)

April 2013 – June 2013

Helped develop the online web application for CareLuLu. Working with the CTO, I was responsible for developing several main processes to be used for their initial launch, including the main school dashboard, favorites, search, and appointments. Also resolved design and development issues that arose during my contract.

Council for Logistics Research, Inc.

Arlington, VA

Web Development Intern

June 2012 – August 2012

Worked with CLR Development Team to enhance the company's intranet functionality. Was also involved in project discussions and processes, and worked to develop documentation for different development needs, including intranet documentation
